JENNY IN THE SKY

Conceptual artist **Jenny Holzer** soars across the skies of New York City with her latest project, "Airplane Banner Truisms." No, she won't be advertising a car dealership or proposing marriage on the clear banners with red type, which will trail small prop planes as they fly from the Verrazano-Narrows Bridge along the Hudson River to the George Washington Bridge. Instead, there will be comments made by Abraham Lincoln, among others, with relevance to America and democracy. Flight times are 1 to 3:30 p.m. Sunday and Monday. Best views are along the Hudson waterfront. For more information, call 212-206-6674, ext. 2, or visit www.creativetime.org/programs.
