

THE CREATIVE TIME CATALOGUE: 33 YEARS, 313 PROJECTS, AND STILL GOING

Compiled by
Lauren F. Friedman

The following listing of projects sponsored by Creative Time since its inception is as complete as possible. Our institutional memory consists of masses of old files, press releases, and slides, many of which were invaluable in our research; when necessary, we've done our best to reconfirm information with outside sources. Above all, in our research for this catalogue it was important to us to acknowledge every artist and participant we've worked with, and to that end we've made every effort to identify them as well as to provide the location, type of artwork or performance, and cosponsor of our events. Our sincere apologies for any errors or omissions, however inadvertent and unintended, found here.
